Subject: Guidelines regarding implementation of section 28DA of the Customs Act, 1962 and CAROTAR, 2020 in respect of Rules of Origin under Trade Agreements (FTA/PTA/CECA/CEPA) and verification of Certificates of Origin-reg.

Kind attention is invited to Board’s Circular No. 38/2020-Customs dated 21.08.2020 wherein reference has been drawn to Chapter VAA and section 28DA of the Customs Act, 1962, which has been inserted vide clause 110 of Finance Act, 2020 and to Customs (Administration of Rules of Origin under Trade Agreements) Rules, 2020 (hereinafter referred to as the CAROTAR, 2020) issued vide notification No. 81/2020-Customs (N.T.) dated 21st August, 2020.

1.1 The aforementioned section and rules aim to supplement the operational certification procedures related to implementation of the Rules of Origin, as prescribed under the respective trade agreements (FTA/PTA/CECA/CEPA) and notified under the customs notifications issued in terms of section 5 of the Customs Tariff Act, 1975 for each agreement.

1.2 The CAROTAR, 2020 shall come into force on 21.09.2020, to provide sufficient time for transition and to ensure that the prescribed conditions in terms of rule 4 are complied with. Necessary modifications in Bill of Entry format are being made to allow declaration in terms of rule 3(a) and 3(d) of CAROTAR, 2020 and the same shall be intimated separately.

1.3 This Public Notice aims to provide procedure for sending verification request to the Verification Authorities in exporting countries in terms of trade agreements, section 28DA of the Customs Act, 1962 and CAROTAR, 2020 and further guidelines for implementation of aforementioned section and rules.

2. The CAROTAR, 2020 and Rules of Origin notified for a trade agreement in terms of subsection (1) of section 5 of the Customs Tariff Act, 1975, broadly provide the following grounds for verification:

a) In case of a doubt regarding the genuineness of the Certificate of Origin (CoO) such as any deficiency in the format of the certificate or mismatch of signatures or seal when compared with specimens on record.

b) In case of a doubt on the accuracy of information regarding origin, i.e. where a doubt arises on whether the product qualifies as an originating goods under the relevant Rules of Origin. In other words, these are cases where there is a
reasonable belief that a product is not grown or not produced/manufactured in a particular country or required value addition/change in CTH/PSR etc., as the case may be, has not been achieved for the goods to qualify as originating.

c) Verification could also be undertaken on random basis as a measure of due diligence. For this purpose, factors such as the quantum of duty being foregone, the nature of goods vis-à-vis the country of origin, commodities that are prone to mis-declaration of country of origin, compliance record of the importer etc., may be given regard while selecting CoO for random verification.

3. The Rules of Origin, by virtue of which a good attains origin of a country, have evolved with subsequent reviews of trade agreements. Most trade agreements have moved from single general rule to specific rule for most of the tariff lines, with inclusion of vast array of processes which can confer origin. Section 28DA of the Customs Act, 1962 makes it incumbent upon an importer to possess sufficient information as regards the manner in which country of origin criteria, including the regional value content and product specific criteria, specified in the Rules of Origin in the trade agreement, are satisfied. For this purpose, CAROTAR, 2020 has provided a form, containing list of basic minimum information which an importer is required to obtain while importing goods under claim of preferential rate of duty. Therefore, in case there is a doubt with regard to origin of goods, information to be first called upon from the importer of the goods, in terms of rule 5 read with rule 4 of CAROTAR, 2020, before initiating verification with the partner country in terms of rule 6.

3.1 Section 28DA of the Customs Act, 1962 further states that mere submission of a certificate of origin shall not absolve the importer of the responsibility to exercise reasonable care to the accuracy and truthfulness of the information supplied. In case an importer fails to provide information in terms of section 28DA(1) (iii) of the Customs Act, 1962 and as prescribed under CAROTAR, 2020, or does not exercise reasonable care to ensure the accuracy and truthfulness of the information furnished, this fact will be informed to Risk Management Centre of Customs (RMCC) through written communication for the purposes of enabling compulsory verification of assessment of all subsequent import consignments in terms of rule 8(1) of CAROTAR, 2020. However, the compulsory verification of assessment will be discontinued once the importer demonstrates that he has established adequate system of controls to exercise reasonable care as required under the Customs Act, 1962.

4. Verification request will be forwarded to the Board based upon following standard operating procedures:

(i) In case several certificates pertaining to identical item are under review or scrutiny, only representative certificates will be forwarded to the Board to cause verification along with list of all CoOs to which the field formation aims to apply the result of such verification. Representative CoOs will be selected in such a manner to ensure that they cover each of the importers and the prescribed originating criteria. For instance, if there are several CoOs issued to a single exporter, but originating criteria are different, then CoOs covering each of the
originating criteria may be considered to be forwarded for verification, with specific queries.

(ii) The verification proposal will be complete, keeping in mind all components of the prescribed format of CoO and all relevant aspects of the Rules of Origin. For instance, in case a CoO has been issued retrospectively, it needs to be seen whether there are provisions in the Rules of Origin to issue retroactive CoO and whether reasons for retroactive issuance need to be provided by the Verification Authority. Similarly, should the proper officer feel the need to verify documents to establish compliance of ‘direct consignment’ or third-party invoicing, if provided for in the Rules of Origin, then the same will be included in the verification proposal.

(iii) Requests for verification will be sent to the Board with the approval of the Principal Commissioner/Commissioner. The reference for verification must contain legible copies of the CoO, invoice and the Bill of Lading/Airway Bill. The request should also contain the information listed in the Annexure-A to this Public Notice.

(iv) Where verification is being considered for goods not cleared or cleared provisionally on grounds of verification of origin, such requests should be communicated immediately to the Board in case requests are in terms of rule 6(1)(a) or 6(1)(c) of CAROTAR, 2020; and within 10 days from the date of receipt of requisite information and documents from the importer in case the request is being considered in terms of rule 6(1)(b) of CAROTAR, 2020.

(v) A mechanism is being devised to monitor the requests which have been forwarded for verification, with special focus on cases where the timeline for response from the Verification Authorities is about to expire.

5. For ascertaining correctness of a claim of preferential rate of duty under a trade agreement, information may be sought from the importer during the course of customs clearance or thereafter (e.g. during subsequent investigations or post-clearance audit). Likewise, a verification request may be made to an exporting country during the course of customs clearance of imported goods or thereafter. While the Customs Act, 1962 provides that information may be sought within a period of five years from the date of claim of preferential rate of duty by the importer, this time limit is subject to any other time limit as may be specified for this purpose under the trade agreement.

6. The Rules of Origin under various trade agreements lay down the format of the CoO, the period of validity, manner of obtaining the certificate and the procedure for verification of origin. One of the usual conditions for accepting the certificate is that it should be signed by the authorized signatories whose name, signature and seal have been communicated by the partner country through agreed channels. At present, the signatures and seals are received by the Board, either directly from the government of the partner country or through the Department of Commerce.
6.1 The Directorate General of Systems has built an online repository on ICES for storing the signatures/seals to facilitate comparison by the assessing officers. DRI has been tasked with uploading the data in the database.

6.2 For the benefit of non-EDI customs locations, copies of specimen signatures and seals will be circulated by DRI. For other locations, the ICES online repository may be utilized.

6.3 In case the specimen seal/signature is not available in the ICES online repository, the issue may be referred to the Board for verification.

7. In terms of rule 6(5) of CAROTAR, 2020, Board has designated Director (ICD), CBIC as the nodal point for taking up verification of origin with partner countries. Hence all requests for verification should be addressed to:

Director (International Customs Division),
Central Board of Indirect Taxes & Customs,
Department of Revenue, Ministry of Finance,
Room No. 49, North Block,
New Delhi -110001. 011- 2309 3380 (off); 011-2309 3760 (fax.)
Email:ftaroo-cbic@gov.in

7.1 All verification related correspondence with Board is to be made onftaroo-cbic@gov.in. Such requests can only be made through nic/icegate email IDs. Such emails should include signed copy of the office letter and legible scanned copies of all relevant documents.

7.2 Where the information requested in terms of rule 6 is received, the proper officer should within the prescribed timelines either restore preferential claim or issue notice for denying the claim in terms of section 28DA, read with section 28 of the Customs Act, 1962 where required, in order to conclude the verification.

7.3 Where a claim for preferential rate of duty is denied, the CoO should be forwarded to the nodal point in the Board for record and onward communication to the exporting country, where required.

8. Verification may also be sought based on data analysis, keeping in mind any change in import trend of a commodity, importer or any amendments to duty rates. It may also be noted that where originating criteria claimed is as per product specific rules (PSRs), the Harmonised System of Nomenclature (HSN) version prescribed in the trade agreement shall apply. The preferential tariff treatment should be extended only in terms of the extant notification. For instance, provision for issuance of Back-to-Back CoO is presently available only under ASEAN-India FTA, and hence Back-to-Back CoO should not be accepted for goods imported under any other trade agreement.

9. Board’s Instruction No. 31/2016- Customs dated 12.09.2016 has been superseded vide Board’s Circular No.- 38/2020- Customs dated 21.08.2020.
10. All trade associations/members of Customs Brokers Association are requested to take note and publicize the contents of this Public Notice among their members/constituents.

11. For the departmental officers, this may be treated as Standing Order.

12. Difficulties, if any, may be brought to the notice of Additional Commissioner of Customs (Technical), ACC Import, New Customs House, New Delhi through e-mail on email ID: accimpdel-technical@gov.in.

This issues with the approval of the Principal Commissioner of Customs, ACC (Import).
